

7th Coupling Days
on
Thermal Analysis Coupled to
Evolved Gas Analysis

DEEP INSIGHT

More than just Thermal Analysis!

The 7th Symposium on Coupling Techniques for Thermal Analysis to Evolved Gas Analysis provides a forum for scientists to present their latest research results specifically obtained by using thermal analysis coupled to mass spectrometry (MS), FT-Infrared spectroscopy (FT-IR), and/or mass spectrometry/gas chromatography (GC-MS). The Symposium will offer a platform for exchanging tips and tricks on sample preparation, experiments, and evaluation in lively discussions. The Coupling Days will provide food for thought to those participants who are not yet very familiar with hyphenated techniques.

Renowned speakers from all over the world will present a summary of the state-of-the-art in coupling techniques and their applications.

SKT 2018 Fee Overview

	Early bird rate until June 15, 2018	Full rate beginning June 16, 2018
Participant	€ 290	€ 380
Students	€ 195	€ 270
Accompanying guests	€ 130	€ 180

Organization SKT 2018

NETZSCH-Gerätebau GmbH

- Dr. Elisabeth Kapsch
- Dr. Jan Hanss
- Dr. Ekkehard Post
- Dr. Ekkehard Füglein
- Melanie Möschl
- Kathrin Frenzl
